

Totowa Police Department		
STANDARD OPERATING PROCEDURE		
SUBJECT: EARLY WARNING SYSTEM		
EFFECTIVE DATE: 5/18/2018	NUMBER OF PAGES: 5	
	BY THE ORDER OF: Chief of Police Robert Coyle	

PURPOSE: The purpose of this written directive is to establish a personnel early warning system.

POLICY: It is the policy of this department to implement and utilize an early warning system for tracking and reviewing incidents of risk and provide timely intervention consistent with Attorney General Guidelines.

This version is based upon The Lawsoft EWS Tracking Software.

PROCEDURE:

I. EARLY WARNING SYSTEM

- A. The Early Warning System is designed to detect patterns and trends before the conduct escalates into more serious problems. As such, employees must understand that the early warning system is not identical to the disciplinary process. Although it is possible that disciplinary action may be taken as the result of evidence that rules and regulations were violated, this is not the sole or even primary intent of the system. The primary intent of an early warning system is to address potential problems through the use of appropriate management and supervisory strategies **before** formal discipline is warranted.
- B. Many different measures of employee performance (actions or behaviors) can be regularly examined for patterns or practices that may indicate potential problems. These performance measures may include, but are not limited to, the following documented indicators:
1. **Internal affairs complaints against the officer, whether initiated by another officer or by a member of the public;**
 2. **Civil actions filed against the officer;**
 3. **Criminal investigations of or criminal complaints against the officer;**
 4. **Any use of force by the officer that is formally determined or adjudicated (for example, by internal affairs or a grand jury) to have been excessive, unjustified, or unreasonable;**
 5. **Domestic violence investigations in which the officer is an alleged subject;**
 6. **An arrest of the officer, including on a driving under the influence charge;**
 7. **Sexual harassment claims against the officer;**
 8. **Vehicular collisions involving the officer that are formally determined to have been the fault of the officer;**
 9. **A positive drug test by the officer;**
 10. **Cases or arrests by the officer that are rejected or dismissed by a court;**
 11. **Cases in which evidence obtained by an officer is suppressed by a court;**
 12. **Insubordination by the officer;**

13. **Neglect of duty by the officer;**
 14. **Unexcused absences by the officer;**
 15. **Any other indicators, as determined by the agency's chief executive.**
- C. Generally, three (3) instances of questionable conduct or flag indicators within the same six (6) month period would initiate the early warning system process.

II. ADMINISTRATION OF EARLY WARNING SYSTEM

- A. The early warning system is primarily the responsibility of the Internal Affairs Unit, but any supervisor may initiate the early warning process based upon his/her own observations. Emphasis should be placed on anticipating employee problems before it results in improper performance or conduct.
- B. The Internal Affairs Unit shall conduct a manual or computerized audit of its records to determine if an employee has the emergence of a pattern, practices or trend of inappropriate behavior or misconduct. In addition to the regular data audits by the Internal Affairs Unit, the Internal Affairs Unit Supervisor shall audit an individual employee's history any time a new complaint is received.
1. Using this information and his/her experience, the Internal Affairs Unit Supervisor may be able to identify employees who may need remedial/corrective intervention even before such is indicated by the early warning system data audit.
- C. If the audit indicates the emergence of a pattern, practices or trend of inappropriate behavior or misconduct, the Internal Affairs Unit Supervisor shall consult with the employee's supervisor and/or commander.
- D. The Internal Affairs Unit Supervisor and the employee's supervisor and/or commander shall review the information provided by the Internal Affairs Unit along with any other relevant information from department records for the purpose of initiating a course of intervention designed to correct/interrupt the emerging pattern, practice or trend.
1. If the audit indicates that the early warning system has returned an incorrect identification or "false positive," that conclusion should be documented.
 2. If the audit reveals that an employee has violated department rules and regulations or written directives, the supervisor in consultation with the Internal Affairs Unit Supervisor should proceed with an Internal Affairs investigation and possible disciplinary action.
 3. If the audit reveals that the employee has engaged in conduct, which indicates a lack of understanding or inability to comply with accepted procedures, the supervisor shall consult with the Internal Affairs Unit Supervisor to determine the appropriate course of remedial/corrective intervention.

III. SUPERVISORS

- A. An employee's first line supervisor is usually the first member of the department to encounter and document specific incidents that affect an employee. It is essential for the supervisor to speak with the employee, document these incidents and report findings to his/her commander and if warranted, the Internal Affairs Unit Supervisor. The success of this program relies heavily on the first line supervisor's participation and involvement.
- B. If a supervisor has initiated remedial/corrective intervention, the Internal Affairs Unit shall be formally notified of such efforts. This information shall be documented and appropriate copies forwarded to the Internal Affairs Unit Supervisor for filing.
 - 1. No entry should be made in the employee's personnel file, unless the action results in disciplinary/corrective action.
- C. If the remedial/corrective intervention was training, documentation shall be filed in accordance with the department's written directive governing training (remedial training).
- D. Supervisors shall forward all documentation as required by department written directives established to assist in a comprehensive audit. This data shall minimally include, but is not limited to: use of force reports, vehicle pursuit reports, and attendance records.

IV. COMMAND PERSONNEL

- A. In addition to the regular data audits conducted by the Internal Affairs Unit, command personnel shall periodically audit an individual employee's history. Using this information and their experience, command personnel may be able to identify employees who may need remedial/corrective intervention even before such is indicated by the early warning system data audit.
- B. When under early warning system monitoring, the employee's commander and supervisor shall meet with the employee to discuss the situation in depth to:
 - 1. Identify problems or potential problems;
 - 2. Determine short and long-term goals for improvement;
 - 3. Come to a consensus commitment on a plan for long-term improved performance;
 - 4. Advise of the monitoring process and the repercussions of future sustained transgressions.
- C. Generally, personnel should expect to remain under intensive monitoring and supervision for six (6) months when an early warning flag is triggered.
- D. Supervisor/Employee Meeting

1. All supervisor/employee meetings shall be thoroughly documented, which will be forwarded to the Chief of Police or his designee. The affected employee and supervisor shall meet on a regular basis, minimally monthly, to discuss progress towards the agreed upon goals and objectives.
2. All regular monthly progress/status reports shall be submitted to the Chief of Police or his/her designee through the chain of command.
3. An additional six (6) months of documented monitoring is required following removal from the early warning system. Monthly monitoring reports from the direct supervisor are required.

V. REMEDIAL/CORRECTIVE INTERVENTION

- A. Supervisory or command personnel may initiate remedial/corrective intervention to correct behavior. Remedial/corrective intervention may include, but is not limited to:
 1. Training;
 2. Retraining;
 3. Counseling;
 4. Intensive supervision;
 5. Fitness for duty examination;
 6. Employee Assistance Program, when warranted, if available;
 7. Peer counseling.
- B. Internal disciplinary action, remedial/corrective intervention, and fitness for duty examinations are not mutually exclusive and should be jointly pursued if and when appropriate.
- C. When remedial/corrective intervention has been undertaken, the Chief of Police shall ensure that such actions are documented in writing. No entry should be made in the employee's personnel file, unless the action results in a sustained investigation. If the remedial/corrective intervention is a training program, attendance and successful completion of that program should be noted in the employee's training record.
- D. All reports shall be forwarded to the Chief of Police for review. These reports have the same confidential status as Internal Affairs documents and are subject to the same disclosure and retention regulations and guidelines.
